

UGOCHUKWU OKORONKWO

AI Automation Developer — Make.com, Zapier, n8n | AI Agents & API Integrations

+234 902 774 7724 | ugochukwuokoronkwo01@gmail.com | Remote (Worldwide) — WAT / GMT+1 LinkedIn: linkedin.com/in/ugochukwuokoronkwo | GitHub: github.com/Hugo0007 | Portfolio: ugo-landing.vercel.app

PROFESSIONAL SUMMARY

AI automation developer with 4+ years building AI agents, workflow automation, and document automation systems for SaaS and service-based SMB clients using n8n, Zapier, Make.com, Airtable, and Claude AI. Builds API-driven integrations with custom API calls, webhooks, data mapping, and synchronization across CRMs (Salesforce, HubSpot, Zoho) and business applications, with custom scripting in JavaScript/TypeScript. Automations have saved client teams 10–25+ hours weekly, cut response times 30–60%, and reduced manual processing errors. Every build ships with documented workflows, template logic, and configurations for smooth client adoption and long-term maintainability.

CORE SKILLS

AI Automation · AI Agents & AI Systems · Workflow & Process Automation · Make.com / Zapier / n8n · Custom API Calls & Webhooks · Custom Scripting (JavaScript, TypeScript) · Airtable · CRM Integrations · Data Mapping & Synchronization · Business Process Documentation

TECHNICAL SKILLS

- **Automation Platforms:** Make.com (scenarios, modules, webhooks), Zapier, n8n, Airtable, Relevance AI
- **AI:** AI agents & AI systems, Claude AI / Claude Code, prompt engineering, AI-assisted operations
- **Integrations & APIs:** REST APIs, custom API calls, webhooks, authentication, data mapping, data transformation & validation, data synchronization, integration troubleshooting
- **Scripting & Data:** JavaScript, TypeScript, database management
- **CRM & Business Systems:** Salesforce, HubSpot, Zoho CRM, Google Workspace, Microsoft Office Suite
- **Delivery & Quality:** workflow design, process optimization, RPA, document generation & templating, business process documentation, user adoption support & troubleshooting

PROFESSIONAL EXPERIENCE

Automation Specialist — Manny Hall and Associate | Remote | January 2025 – Present

Build AI and automation systems for SaaS and service-based SMB clients — agency-style delivery across sales, support, and administrative operations.

- Designed and implemented AI-powered workflow and document automation systems using n8n, Zapier, Airtable, and Claude AI, replacing manual sales, support, and administrative operations for multiple SMB clients.
- Automated recurring document generation, reporting, and administrative workflows with n8n and Zapier, saving client teams 10–25+ hours weekly while reducing manual processing errors.
- Automated lead capture, routing, and qualification pipelines using Airtable, REST APIs, and webhook integrations — cutting response times by 30–60%.
- Developed API-driven integrations using custom API calls and webhook workflows to connect CRMs (Salesforce, HubSpot, Zoho), Airtable databases, and third-party business applications, with data mapping and synchronization across systems.

- Translated client and operational requirements into scalable automation solutions; validated data flows, troubleshoot integrations, and documented workflows, template logic, and system configurations to support user adoption and reliable handoffs.

Executive Management Assistant (Automation-Focused) — Manny Hall and Associate | Remote | June 2023 – December 2024

- Transitioned manual executive and operational workflows into automated systems using Airtable, Zapier, and AI-assisted processes, improving coordination across distributed teams.
- Implemented automated task orchestration, communication workflows, and Airtable-based dashboards with templated reports — reducing follow-up overhead by 40%.
- Partnered with leadership to translate operational challenges into scalable no-code automation and integration solutions; standardized processes and documentation, improving workflow consistency and execution visibility.

PROJECTS

AI Lead Qualification Agent — Claude AI, Airtable, n8n

Built an AI agent for lead qualification: automated lead scoring, routing, and CRM data updates through REST API and webhook integrations, reducing manual lead-processing time and improving response efficiency.

Internal Operations Dashboard — Airtable, Zapier, n8n

Developed a centralized Airtable dashboard for operational reporting and automated document/report generation; configured workflow triggers, validation, and notifications, improving cross-team visibility and reducing administrative overhead.

AI-Assisted Workflow Automation System — Multi-tool API Integrations

Created AI systems that automate repetitive business tasks and internal process execution, integrating multiple third-party tools and APIs to streamline communication and data synchronization.

CERTIFICATIONS

- TEFL Certification (English-language instruction) — November 2024

EDUCATION

B.Sc., Computer Science — Alex Ekwueme Federal University, Ndufu-Alike, Ikwo | 2015 – 2019
