Remote — Nigeria (WAT, UTC+1): full daily overlap with CET business mornings | Available immediately

PROFESSIONAL SUMMARY

Automation consultant with **4+ years** turning ambiguous business processes into reliable AI-powered systems for SaaS and service-based businesses. Works hands-on with **Claude Code, Anthropic Claude, n8n, Make, Zapier, Airtable, and Relevance AI**, designing **AI agent** workflows and API/webhook integrations across **CRM** platforms (**Salesforce, HubSpot, Zoho**). Equally comfortable analyzing a business process, recommending the automation strategy, and building it — then documenting **SOPs**, workflow logic, and configurations so solutions scale beyond the person who built them. Experienced working directly with founders and leadership to translate operational challenges into systems.

CORE SKILLS

Claude Code · Anthropic Claude · AI Agent Architecture · Prompt Engineering · n8n · Make · Zapier · Relevance AI · Airtable · Business Process Analysis · APIs & Webhooks · CRM Integration (Salesforce, HubSpot, Zoho) · SOPs & Technical Documentation · JavaScript / TypeScript

TECHNICAL SKILLS

- **AI & LLM:** Claude Code, Anthropic Claude, Relevance AI, prompt engineering, AI agents, AI-assisted operations, data preparation and structuring for AI workflows
- **Automation Platforms:** n8n, Make, Zapier, Airtable
- **Integration & APIs:** REST APIs, webhooks, authentication, data mapping, transformation & validation, data synchronization, integration troubleshooting
- **Business Systems:** Salesforce, HubSpot, Zoho CRM, Google Workspace, Microsoft Office Suite
- **Process & Delivery:** business process analysis, workflow design, process optimization, RPA, document generation & templating, SOPs & business process documentation
- **Programming & Data:** JavaScript, TypeScript (custom scripting in n8n/Make code steps), database management

PROFESSIONAL EXPERIENCE

Automation Specialist — Manny Hall and Associate | Remote | January 2025 – Present

- Designed and implemented AI-powered workflow and document automation systems using **n8n, Zapier, Airtable, and Anthropic Claude (Claude AI / Claude Code)**, replacing manual sales, support, and administrative operations for SaaS and service-based SMB clients.
- Built **AI agent** workflows for lead capture, routing, and qualification using Airtable, REST **APIs**, and **webhook** integrations — **reducing client response times by 30–60%**.
- Developed API-driven integrations connecting **CRM** platforms (**Salesforce, HubSpot, Zoho**), Airtable databases, and third-party business applications, handling data mapping and synchronization across systems.

- Automated recurring document generation, reporting, and administrative workflows with n8n and Zapier, **saving client teams 10–25+ hours weekly** while reducing manual processing errors.
- Analyzed business and operational requirements, recommended automation strategies, and delivered scalable solutions — documenting workflows, template logic, **SOPs**, and system configurations to support adoption and long-term maintainability.

Executive Management Assistant (Automation-Focused) — Manny Hall and Associate | Remote | June 2023 – December 2024

- **Partnered directly with leadership** to analyze operational challenges and translate them into scalable no-code automation and integration solutions — the same founder-facing consulting motion this role requires.
- Transitioned manual executive and operational workflows into automated systems using Airtable, Zapier, and AI-assisted processes, improving coordination across distributed teams.
- Implemented automated task orchestration, communication workflows, and Airtable-based dashboards with templated reports — **reducing follow-up overhead by 40%**.
- Standardized processes and documentation, improving execution visibility and workflow consistency across the organization.

PROJECTS

AI Lead Qualification Workflow — Anthropic Claude, Airtable, n8n

- Built an AI-assisted lead qualification agent that feeds structured CRM and Airtable data into **Claude** for scoring, using **prompt engineering** and reusable prompt templates for consistent, machine-readable outputs.
- Automated lead scoring, routing, and CRM updates through REST API and webhook integrations — reducing manual lead-processing time and improving response efficiency.

Internal Operations Dashboard — Airtable, Zapier, n8n

- Developed a centralized Airtable dashboard for operational reporting and automated document/report generation, with workflow triggers, validation, testing, and notifications — improving cross-team visibility.

AI-Assisted Workflow Automation System — AI agents & multi-tool integration

- Created **AI agents** and AI-assisted workflows automating repetitive business tasks, integrating multiple third-party tools and APIs for communication and data synchronization.

CERTIFICATIONS

- TEFL Certification — November 2024

EDUCATION

- **B.Sc., Computer Science** — Alex Ekwueme Federal University, Ndufu-Alike, Ikwo (2015 – 2019)
